Summary

Front-end developer with 3+ years of experience in website and mobile app development. Proven ability to craft captivating and user-centric interfaces using technologies such as Webflow, JavaScript, JQuery, ReactJS, and Laravel. Passionate about creating innovative and effective solutions that meet the needs of users and businesses.

Experience

Frontend Developer (Webflow)

SYMSON

Nov 2023 - Present (2 months)

- Maintained and optimized Symson's live website to ensure its stability and performance.
- Designed and implemented a new webpage based on Figma to drive sales growth.
- Built a dynamic ROI Calculator using JQuery and Airtable, enabling clients to quantify the value of Symson's services.
- Created a captivating scroll effect animation on the Algorithm page, enhancing user engagement and brand image (<https://www.symson.com/algorithm>).
- Implemented a Client-First approach to ensure styling consistency across all web pages.

Frontend Developer

Freelance (Self employed)

Aug 2020 - Present (3 years 5 months)

Frontend Developer

Alumio

Feb 2022 - Oct 2023 (1 year 9 months)

- Front-end developer with experience in Webflow, JavaScript, jQuery, ReactJS, and Laravel
- Developed the front-end of Alumio's company website, an Integration Platform as a Service (iPaaS) provider
- Created a visually appealing, responsive, and user-friendly website using Webflow
- Added dynamic and interactive elements to the website using JavaScript and jQuery
- Passionate about creating innovative and effective front-end solutions that meet the needs of users and businesses

Frontend Developer

Dewatic

May 2021 - Oct 2021 (6 months)

- Front-end developer with a strong track record in building high-performance, scalable, and user-friendly front-ends using a variety of technologies and frameworks, including Laravel, JavaScript, jQuery, ReactJS, Tailwind CSS, and Bootstrap.

- Developed the front end of Dewatic's client website, using Laravel to build the backend and JavaScript, jQuery, and ReactJS to develop the dynamic and interactive elements of the front end.
- Ensured that the Dewatic client website was both visually appealing and responsive by using Tailwind CSS and Bootstrap to style the website.
- Passionate about creating innovative and effective front-end solutions that meet the needs of users and businesses.

Mobile Developer

PT. Infosys Solusi Terpadu

Jan 2021 - May 2021 (5 months)

- Front-end developer with a strong track record in building high-performance, scalable, and user-friendly front-ends using a variety of technologies and frameworks, including Temenos Kony.
- Led the development of the front end of a banking application for Bank Mayapada, using Temenos Kony to create a user-friendly and secure banking application for the bank's customers.
- Collaborating closely with a team of back-end developers and business analysts to ensure that the front end of the application meets all functional and non-functional requirements.
- Applying user-centered design principles to create a front-end that is easy to use and navigate.

Frontend Web Developer

PT Finnet Indonesia

Jul 2019 - Oct 2019 (4 months)

- Front-end developer with experience using Laravel, CSS, and JavaScript to build dynamic, interactive, and user-friendly interfaces.
- Developed the front end of the Finnet corporate dashboard website during a three-month internship, working closely with a team of experienced developers to meet all client requirements.
- Used knowledge of Laravel to build a dynamic and interactive front end that allowed users to easily access and visualize data from a variety of sources.
- Used CSS and JavaScript to create a visually appealing and responsive interface that could be used on a variety of devices.
- Developed a corporate dashboard website that has helped Finnet to improve its operations and make better decisions.
